EDUCATION

University of Toronto | Toronto, ON, Canada

April 2027

Honors Bachelor of Arts and Sciences – Economics (Data Analytics), Cognitive Science

PROFESSIONAL EXPERIENCE

Freelance Data Consulting | Washington DC, USA

May 2025 – Present

Co-Founder

- Co-started a consulting start-up aimed to take unused data and provide statistics based solutions for a variety of problems including pricing, revenue and target expansion for small businesses. Collaborated with multiple client businesses across different sectors to provide tailored insights. Worked under tight and constant deadlines to implement customized strategies targeted for business growth and optimization.

One Pacific | Hong Kong, SAR

May 2025 – July 2025

Tech Consulting

- Worked in an foreign environment to a list of international clients assessing needs and implementing cloud-based software (e.g., NetSuite). Additionally I collaborated with a team using data analysis to assess under serviced markets for potential expansion within Hong Kong and the greater pacific region.

U of T Undergraduate Economics Journal | Toronto, Canada

March 2026 – Present

Journal Manager

- Started the first undergraduate economics research journal servicing University of Toronto STG. I worked with my co-manager to enlist a council of professors, write the constitution, hire editors and staff members, procure academic papers and promoted our publication to Economics classes. Other responsibilities include organizing meetings, editing papers, selecting papers and understanding how to run an efficient and unbiased publication pipeline while managing a team of editors.

EXTRACURRICULAR ACTIVITIES

Vertige Investment Group | Toronto, ON, Canada

January 2025 –September 2025

Macroeconomic Research

- Worked with a team under harsh deadlines to produce economic and investment strategy literature. Conduct market research and analysis to identify regional investment opportunities, providing strategic insights to optimize portfolios. Collaborates with cross-functional teams on financial modeling, risk assessment, and due diligence to drive presented business growth options.

University of Toronto Economics Club | Toronto, ON, Canada

August 2025 – Present

Research Committee Member

- Worked independently and collaboratively to meet publication deadlines for a range of economic topics including behavioral economics, pricing strategies, justice reform, and policy design. Contributed to an undergraduate research journal through in-depth literature reviews and data-driven analysis.
